Dear Rainbow Owner:

Welcome to the growing Rainbow Family!

You have made a wise investment by purchasing your Rainbow product. Rexair, Inc., the manufacturer of the Rainbow, has established a proud heritage of manufacturing a superior product for nearly 60 years. The Rainbow product is marketed in every one of the United States and over 40 international countries.

Please feel free to call upon your local Rainbow distributor or Rexair, Inc., Troy, Michigan for any assistance.

The Rainbow® CLEANING SYSTEM is manufactured by

Rexair, Inc.
Troy, Michigan

Consumer Care Number

As part of Rexair's Consumer Care program, all new Rainbows receive a Consumer Care Serial Number after passing Quality Control testing at the factory. This serial number assists in providing:

1. Ownership identification for you
2. Warranty identification for your Distributor
3. Assurance of having cleared quality control
4. Assurance of new "factory-fresh" condition

For your protection, check to see that the serial number is on the Rainbow at the location shown on the accompanying diagram. No new Rainbow should be sold without this number. If the number is missing, Rexair makes no claim as to the origin, age, or condition of the unit. If you cannot find a serial number on your Rainbow, please call our customer service department at (248) 643-7222, or fax to (248) 643-7676.

For your protection record the serial number in the space provided below. Save this information for future reference.

Serial No. ____________________________

The configuration of the Rainbow® Cleaning System and the words Rainbow®, RainbowMate® and Rexair® are registered trademarks of Rexair, Inc., Troy, Michigan.

MESSAGE FROM THE MANUFACTURER

Rexair, Inc.

REXAIR, INC., manufactures the Rainbow Cleaner for sale only to independent Authorized Distributors, who are experienced in direct in-home selling. Since Rexair does not market its product through national advertising, awareness of the product is created by the individual efforts of thousands of direct selling “dealers,” who, by means of in-home demonstrations create interest in the Rainbow Cleaner in their local communities. The independent Authorized Distributors with whom these dealers are affiliated assume the responsibility for the legitimate distribution and service of the Rainbow Cleaner directly through their own dealers, or indirectly through independent subdistributors and their dealers.

Rexair provides to its Authorized Distributors, and only to them, a written three year warranty on its products. Even though Rexair, as the manufacturer, does not deal directly with the consumer nor provide the consumer with a written warranty, the law imposes certain responsibilities on all manufacturers who make consumer products. The products must not be defective and must be generally fit for their intended uses. These implied warranties of merchantability and fitness are honored by Rexair. Further, Rexair requires each Authorized Distributor to pass through to the consumer, by way of the Authorized Distributor’s own written warranty, the benefit of Rexair’s warranty to such Distributor.

Rexair further requires that each Authorized Distributor make prompt and workmanlike service available through its own service outlets or through responsible independent service outlets in those communities in which it sells Rexair products through its independent subdistributors and dealers.

Do not lose the name and address of the dealer or distributor from whom you bought the Rainbow Cleaner. Contact him or her for advice on caring for your Rainbow, warranty coverage, service, and the nearest service outlet.

Rexair is highly selective regarding those it appoints as its direct customers, the Authorized Distributors. However, Rexair has no agreement or legal relationship with the independent resellers who acquire products directly or indirectly from an Authorized Distributor, and can only attempt to correct any customer complaints about such resellers by acting through the responsible Authorized Distributor. Rexair’s announced policy is to hold each Authorized Distributor responsible for remedying the results of any statement or action by any of the independent resellers that may result in a complaint from any member of the buying public.

Should you have any problem, or have any question regarding the above, you should first contact the distributor or dealer from whom you purchased your Rainbow. If you have any problem locating that person, contact Rexair’s Customer Service Department at the address listed below, being sure that you include your Rainbow’s Serial Number. They will immediately send you the name, address and phone number of the responsible Authorized Distributor for your area. If you feel that you get no help from the Authorized Distributor, please contact us immediately. All of our Authorized Distributors know their obligations

For any additional information or assistance write to:

Rexair, Inc., 3221 W. Big Beaver Road, Suite 200, Troy, Michigan 48084, (248) 643-7222 or fax to (248) 643-7676.

THE RAINBOW IS MANUFACTURED BY REXAIR AND SOLD TO ITS AUTHORIZED RAINBOW DISTRIBUTORS FOR RESALE SOLELY THROUGH IN-HOME DEMONSTRATIONS TO ULTIMATE USER-OWNERS. ANY OTHER SALE IS STRICTLY PROHIBITED.
IMPORTANT SAFEGUARDS

Please read all instructions carefully before using unit. Use your Rainbow only for its intended use as described in the instructions. The use of attachments not recommended by Rainbow may cause hazards.

WARNING: To reduce the risk of fire, electric shock, or injury, when using an electrical appliance, basic precautions should always be followed, including the following:

1. Close supervision is necessary when any appliance is used by or near children. Do not allow your Rainbow to be used as a toy or to run unsupervised at any time.
2. Unplug the Rainbow when not in use. Turn it off at the switch before unplugging. Grasp the plug to disconnect it from the wall outlet to avoid damage to cord, plug, prongs, or receptacle. Do not pull or carry by cord, use cord as a handle, close a door on cord, pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces. Do not use with damaged cord or plug.
3. Do not leave appliance when plugged in. Unplug Rainbow from outlet when not attended and before servicing.
4. If your Rainbow is in disrepair, do not attempt to operate. If Rainbow is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to your Rainbow Distributor.
5. Do not clean the unit, or unplug the hose until the Rainbow is switched off and the plug is removed from the wall outlet.
6. Do not connect to the receptacle of an incandescent light fixture, or use any extension cords.
7. Do not use the Rainbow to unplug drains. If sewer gas is drawn into the Rainbow it could cause an explosion.
8. Do not ever touch a metal sink, cold or hot water pipe with one hand while touching the metal parts of any electrical appliance, light fixture or switch with the other hand. One’s body could complete an electrical circuit to the ground. Additionally, wet skin surfaces can greatly increase this hazard. Do not handle plug or appliance with wet hands.
9. Do not put any objects into openings. Do not use with any openings blocked. Keep free of dust, lint, hair, and anything that may reduce air flow. (b) Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts. (c) Use extra care when cleaning on stairs.
10. Do not pick up anything that is burning or smoking such as cigarettes, matches or hot ashes.
11. Do not use to pick up flammable or combustible liquids such as gasoline or use in areas where they may be present.
12. This appliance is provided with double insulation. Use only identical replacement parts. See instructions for Servicing of Double-Insulated appliances.
13. Always follow these IMPORTANT SAFEGUARDS.
14. CAUTION — ALWAYS REPLACE THE SEPARATOR IMMEDIATELY AFTER CLEANING.
15. WARNING — To avoid risk of electrical shock, never use the electrical hose (supplied with the Power Nozzle) to pick up water or any other fluids. Use only the Rainbow hose for wet-pickup operations. Refer to page 14 for illustrations and descriptions of each hose.

WARNING: TO AVOID ELECTRICAL SHOCK DO NOT USE OUTDOORS.

CAUTION: It is recommended that you do not use the Rainbow to clean the floor or the chimney flue, or any other oily or greasy compounds (such as soap) or ashes, ceramc dust, drywall, plaster dust or other powdery substances that are resistent to the wetting action of water. Do not use the Rainbow to pick up in the vicinity of any volatile or toxic materials.

USE THE RAINBOW ONLY AS DIRECTED IN THIS OPERATION MANUAL.

SAVE THESE INSTRUCTIONS! FOR HOUSEHOLD USE ONLY.

WET PICK-UP INSTRUCTIONS

When using the Rainbow for wet pick-up follow directions exactly:
1. Start with empty basin and never pick up more than two quarts without emptying. That is to say, NEVER let water level in basin get above center post. This will cause the Rainbow to vibrate or shake.
2. Do not use when your hands are wet, or with bare or wet feet.
3. Do not stand in water when using the Rainbow for wet pick-up. However, if in order to pick up water you find it necessary to stand on a wet (dump) floor, be absolutely certain you do not touch the metal parts of any electrical appliance, light fixture or switch.
4. Never use for wet pick-up outside, on the ground, in a basement, or in a room where a film of water can reach a ground.
5. Do not touch any metal parts of the Rainbow motor unit, such as the separator attaching nut, until you have first disconnected the electrical cord from the wall outlet.

WARNING: To avoid risk of electrical shock, never use the electrified hose supplied with the Power Nozzle to pick up water or any other fluids. Use only the Rainbow hose, supplied with the Rainbow, for wet-pickup operations. Refer to illustrations and descriptions of each hose on page 14.

PROPER CARE FOR LONG LIFE OF THE RAINBOW

SEPARATOR - Remove and clean the separator after each use. Remove separator (using a screwdriver if necessary) clean inside and out with soap and water using the Rainbow Separator Cleaner. Dry separator thoroughly. (d) Replace the separator. Tighten the nut finger-tight to hold the rim of the separator snug. Do not force the separator into the shaft onto which the nut is threaded.

CAUTION — ALWAYS REPLACE THE SEPARATOR IMMEDIATELY AFTER CLEANING.

WATER - Do not clean too long with one lifting of water. Check water during cleaning, and if water is too thick with lint and dirt, empty dirty water and put in clean water. The correct water level is the top of the post located in the center of the Rainbow water basin.

NEVER FILL BASIN ABOVE POST

BASIN - Remove Rainbow power unit from basin when not in operation. After each cleaning the basin should be emptied, washed out thoroughly and dried. Leave the Rainbow OFF basin while storing between each cleaning.

Neglecting part or all of the above instructions will cause unnecessary trouble and expense for service. Following these instructions should give you years of trouble-free, efficient service.

THE RAINBOW IS MANUFACTURED BY REXAIR AND SOLD TO ITS AUTHORIZED RAINBOW DISTRIBUTORS FOR RESALE SOLELY THROUGH IN-HOME DEMONSTRATIONS TO ULTIMATE USER-OWNERS. ANY OTHER SALE IS STRICTLY PROHIBITED.
OPERATION AND CARE

1. Fill water basin with cold tap water to the top of the past located in the center of the basin. This is the correct amount of water (2 quarts) for all cleaning operations performed by the Rainbow.

2. Set power unit on top of basin to air intake for dust and dirt. Be sure that entire rim of power unit is firmly seated in groove on top of basin. Hook two clamps to rim of water basin and snap up.

3. Insert the long curved bottom wand into the floor and wall brush by matching grooves on tool with bumps on wand. Give tool half a turn to lock in place.

Reminder: The water in the basin must remain liquid to effectively trap dust and dirt. Therefore, DO NOT clean too long with one filling of water. When water becomes thick with lint and dirt, empty water basin and refill.

4. Connect the straight wand and handle (short curved wand) and insert into the bottom wand with tool on end. Should the wands come apart while in use, place tightly with curved wand, between knobs at end of the wand and/or straight wand until a snug fit is obtained. Should wand wedge tightly together, hold parallel to the rug or carpet and drop them. The vibration will cause them to loosen. Repeat the process if necessary. If the wands are properly adjusted for snugness, they will not wedge together.

5. Push soft end of Rainbow hose over raised ridge on handle until it "SNAPS" in place.

6. Insert metal end of Rainbow hose into the air intake until it clicks. To remove, press end on coupling marked "PRESS" and pull Rainbow hose from machine.

7. Connect electrical cord to outlet. Turn switch on top handle to the "ON" position. When unit is "OFF," remove from basin until ready to use.

8. A) Adjust airflow control sleeve on top of curved wand. Close opening with airflow control sleeve for full power. B) To reduce airflow, rotate airflow control sleeve so opening in curved wand is exposed. Adjust as needed for different cleaning jobs.

9. With the machine at the left and to the rear, hold the curved wand with the right hand at a comfortable angle. Grasp the hose with the left hand making a loop behind the back. Slowly guide the tool back and forth in smooth and easy strokes. Let the tool and the Rainbow do the work.

10. To empty water basin:
   1. Release the two clamps.
   2. Remove power unit.
   3. Pick up water basin by the curved air intake and pour dirty water from the opposite side.
   4. The heavier particles of foreign matter such as soaked lint, etc. will settle to the bottom of the basin when pouring out the dirty water. 5. Next, it is recommended that you simply remove the wet, foreign matter, such as soaked lint, etc., by placing it into a plastic disposal bag or waste container.

11. Wash out water basin. Rinse and dry thoroughly. Leave Rainbow power unit OFF basin until the next time it is used.

12. SEPARATOR - Remove and clean the separator after each use. Remove separator (using a screwdriver if necessary) clean inside and out with soap and water using the Rainbow Separator Brush which is supplied. Dry and replace the separator. Tighten the nut finger-tight to hold the flat rim of the separator snug. Do not force the separator into the shaft onto which the nut is threaded. CAUTION ALWAYS REPLACE THE SEPARATOR IMMEDIATELY AFTER CLEANING. DO NOT OPERATE WITHOUT THE SEPARATOR.

Warning: Because of the danger of shock, any electrical appliance should be used only as directed. There should be no unauthorized use of any electrical product. Electrical leakage and shorts can occur wherever there is electricity. With any electrical appliance, if the user is not grounded there is generally no risk of hazard. But if the user is standing on the ground in a basement, or in a room where a film of water can reach a ground, severe shock could result. Therefore, use the Rainbow only as directed in this operation manual. Refer to the Important Safeguards Section on page 6. This, of course, is true of any use of electricity with electrical fixtures or appliances that can develop shorts.
DUSTING BRUSH AND UPHOLSTERY TOOL

The Rainbow dusting brush is a wonderful tool to be used for those special cleaning jobs. Good for lamps, lamp shades, venetian blinds, books, ornaments and the like. Just attach to the curved wand and move lightly over the surface to be dusted.

Reminder: Don't forget - for use on delicate objects, reduce airflow by opening the Airflow Control Sleeve. To avoid abrasions to delicate surfaces (such as shades and/or highly polished surfaces), remember to remove and clean bristles in warm soapy water. Let dry before replacing.

1. To clean upholstered furniture use the Rainbow upholstery tool. The upholstery tool may be used alone or with the Jet Brush (see above illustration). Attach upholstery tool to curved wand. A slight twist as they are pushed together will make them hold securely. Use with full airflow. To remove dirt, move tool over areas to be cleaned with slow, even strokes.

2. To clean stairs, remove Rainbow from dolly. Allow the Rainbow to rest solidly on stair above the one being cleaned. Move the Rainbow up one step at a time and continue cleaning.

3. To clean stair riser, turn tool one-half turn and use as illustrated.

4. Reduces airflow gently brush over plants to remove dust and dirt which blocks light and hides the natural sheen of the foliage.

5. Use it for cleaning dogs and cats. Dust, dirt and loose hair are easily removed by the Rainbow's silent airflow. Frequent grooming cuts down on need for baths and your pets will enjoy it too.

6. Clean the surface of suits, wool and fur coats, with upholstery tool with the jet brush. For delicate fabrics, reduce airflow.

7. Use the upholstery tool with jet brush on: sofas • chairs • mattresses • pillows • blankets • drapes and curtains • closet shelves. Help prevent moths by cleaning wool coats and sweaters before storing.

8. Try your Rainbow dusting brush on: lighting fixtures • lamp shades • stereo and VCR equipment • picture frames • pianos • hats • heat and cold air vents • inside kitchen and bathroom drawers • screens.

THE RAINBOW IS MANUFACTURED BY REXAIR AND SOLD TO ITS AUTHORIZED RAINBOW DISTRIBUTORS FOR RESALE SOLELY THROUGH IN-HOME DEMONSTRATIONS TO ULTIMATE USER-OWNERS. ANY OTHER SALE IS STRICTLY PROHIBITED.
ADDITIONAL USES FOR THE RAINBOW

1. To clean hardwood floors, lino, tile, or walls, use the combination floor and wall brush. Attach the brush to the metal wand. The brush locks into position and will not fall off. Use full airflow when cleaning floors.

1A) When cleaning walls, best results are obtained when only the top edge of the brush is allowed to touch the wall and cleaning is done with a downward stroke. With a slight space between the wall and the bottom edge of the brush, dust is removed before the bristles touch it, thus avoiding streaks.

1B) To clean the floor and wall brush, just whilst it clean with the open end of the hose, or remove furniture guard and grab the end of the hose. Wash brush in warm soapy water and reassemble when dry. Beaded edge of guard should be up.

2. The Rainbow crevice tool is designed to achieve maximum airflow and cleaning power. Attach to curved wand and use full airflow, with airflow control sleeve closed.

2A) Use crevice tool to clean deep down between furniture and automobile cushions.

2B) The crevice tool reaches those low areas along baseboards, under radiators, and between radiator sections.

3. THE RAINBOW IS MANUFACTURED BY REXAIR AND SOLD TO ITS AUTHORIZED RAINBOW DISTRIBUTORS FOR RESALE SOLELY THROUGH IN-HOME DEMONSTRATIONS TO ULTIMATE USER-OWNERS. ANY OTHER SALE IS STRICTLY PROHIBITED.

CLEANER

2A) The Attachment Caddy features a convenient rotating arm which allows easy removal of the Rainbow power cord. Simply rotate the arm down to release the power cord from the caddy. For installation, make sure all three locking legs of caddy lock under the lip of the cap. Line up notch in cap with rib on cap to prevent caddy from turning.

2B) Attachment Caddy snaps into place on your Rainbow and provides convenient storage for your Rainbow attachments and power cord.

4A) TO AROMATIZE... Use a few drops of any Rainbow fragrance such as Violet, Apple Blossom, Siberian Pine, Gardenia, Lemon, or Orange in the Rainbow water basin. Assemble the Rainbow on the basin and turn on switch. In a matter of minutes a pleasant fragrance will permeate the room.

4B) TO DEODORIZE... Add two handfuls of Rainbow Deodorant Air Freshener to the water in the basin, turn machine on. The 360 degree peripheral exhaust quickly refreshes the air in the entire room, alleviates objectionable household odors.

4C) TO USE YOUR RAINBOW FOR WET PICK-UP... Refer to wet pick-up instructions on page 7. Follow these instructions carefully and NEVER LET WATER LEVEL GET HIGHER THAN CENTER POST IN WATER BASIN. ONLY USE THE RAINBOW HOSE FOR WET PICK-UP.
INFLATOR TOOL

INFLATOR PIN

INFLATOR BODY

The Rainbow Inflator Tool is ideal for inflating beach balls, inflatable toys, and air mattresses. The Refrigerator Coil Cleaner Extension is ideal for cleaning hard-to-reach areas.

INSTRUCTIONS FOR USE:
To Use The Rainbow Inflator Tool, attach Rainbow hose to exhaust opening on the Rainbow. Attach curved wand to hose, making sure airflow control sleeve on wand is closed. Attach inflator tool to curved wand. A slight twist as they are pushed together will make the fit secure.

Insert the pin into the inflator stem of the object to be inflated, and switch on the Rainbow.

REFRIGERATOR COIL CLEANER EXTENSION

INFLATOR BODY

To Clean Hard-to-Reach Areas, such as behind or underneath the refrigerator, use the refrigerator coil cleaner extension. Remove the inflator pin from the end of the inflator body, and replace with the extension. Push all the way in for a snug fit. Attach Rainbow hose to air intake on the Rainbow, and you’re ready to clean.

THE RAINBOW HOSE

The Rainbow hose is light in weight and truly flexible. The soft coupling at the end is easy on the hands, and assures a firm hold of the hose at all times. To clean: Insert air coupling marked with "PRESS" into exhaust opening after removing exhaust cap. Place the soft coupling end of the hose into the air intake. Switch on motor and gidge hose. Any dirt stuck in the hose will be drawn into the Rainbow’s water bath.

Model: R-4147

The Rainbow Hose

- Use for wet & dry pickup.
- Supplied with the Rainbow.

The Electrified Hose

- Use only for dry pickup. To avoid risk of electrical shock, never use to pick up water or any other fluids.
- Supplied with the Power Nozzle. For use with Power Nozzle and RainbowMate.

SPECIAL EQUIPMENT & SUPPLIES

1. 4-Quart Basin
   The Rainbow 4-Quart basin is available for those "sliger" cleaning jobs. The larger water basin fits the Rainbow dolly and doubles the cleaning capacity of the Rainbow. It's ideal for larger homes and "over-sized" cleaning jobs.

2. Floor Squeegee
   The new Rainbow Floor Squeegee allows you to deep clean your linoleum and tile floors without getting your hands wet. Use with Rainbow Floor Cleaner Concentrate to clean your floors with a minimum of effort.

3. Model R-2823

4. Rainbow Deodorizer-Air Freshener
   Two capsules of Rainbow Deodorizer-Air Freshener added to the water in the Rainbow Water Basin alleviates objectionable household odors such as fish, tobacco, cabbage, paint, etc. One quart.

5. Rainbow Floor Cleaner Concentrate
   Rainbow Floor Cleaner Concentrate is ideal for thoroughly cleaning linoleum or tile floors. Just spread on Floor Cleaner Concentrate in recommended solution and let it do the work. One quart.

6. PINE NEEDLE OIL
   Rainbow Pine Needle Oil adds a delightful Pine Needle freshness to the home. Simply break only one capsule into the water in the Rainbow Water Basin and bring the fragrance of pines indoors. 100 capsules.

7. Rainbow Accessory Packs
SPECIAL EQUIPMENT & SUPPLIES

1. Sprayer Assembly
   The Rainbow Sprayer Assembly (A) attaches to your Rainbow wand and is used to spray insecticides, mothproofing solutions, etc. It can also be used with liquid fertilizers or plain water on your houseplants. To use the Sprayer, simply fit it onto your Rainbow curved wand and (B) connect the hose to the air exhaust on your Rainbow.

WARNING:
THE RAINBOW SPRAYER IS NOT TO BE USED WITH ANY TYPE OF FLAMMABLE LIQUIDS. Be sure to follow manufacturer's instructions when using chemical solutions.

2. Aerofresh Bag
   This handy plastic bag is sized to fit even your largest cushions and pillows. Place cushion in Aerofresh bag. With the upholstery tool attached to the end of the wand, hold bag tightly around wand (see diagram) and remove stale, dusty air from the cushion. Without letting go of bag at wand, quickly remove exhaust cap and attach hose to air exhaust opening on Rainbow to "refill" your cushion with clean, water-washed air.

3. Rexifoamer
   A) The Rainbow Rexifoamer makes "dry" suds from liquid shampoos. Your rugs and carpets can be shampooed inexpensively, yet professionally, right in the home.
   B) Rexifoamer Shampoo Concentrate quickly removes unsightly traffic film from rugs and carpets. No hard scrubbing required. Cleanses thoroughly, dries quickly. One quart.

4. Rainbow Power Nozzle
   The Power Nozzle adds motorized brush action to the already superlative cleaning efficiency of the Rainbow. The rapidly revolving brush loosens lint, threads, hair and dirt for easy pickup into the Rainbow water basin. It connects quickly and conveniently to the Rainbow and makes most deep nap, pile and shag carpets easier to groom and clean. The fully motorized Power Nozzle is easy to use, sturdy and lightweight. Warning: Severe electrical shock could occur if used outside or on wet surfaces.

5. Aeromate®
   The Aeromate® carpet cleaning extraction unit allows you to achieve professional results without the professional price tag.
   A) Aeromate Carpet Cleaning Formula combines cleaner, deodorizer, protector, and reconditioner for ease of operation and superior cleaning results. One quart.

OPERATIONS CHECKLIST

This Rainbow appliance was thoroughly tested and inspected at the factory. It was in good operating condition when shipped. If a major problem develops, the following trouble shooting procedures may help identify and correct the problem with a minimum inconvenience.

PROBLEM
A. Machine WON'T RUN
   1. Not connected at wall outlet
   2. No power to wall outlet
   3. Defective cord, switch, or machine
   4. Machine not correctly positioned on waterpan
   5. Clogged or dirty separator
   6. Separator not correctly sealed

B. Loss of Air Flow
   1. Machine not correctly positioned on waterpan
   2. Obstructed hose
   3. Obstructed wand
   4. Obstructed attachment, funnel, or Power Nozzle

C. Discharge Water or Water Droplets
   1. Dirty or clogged separator
   2. Separator not correctly sealed

D. Discharge Dust
   1. Dirty or clogged separator
   2. Separator not correctly sealed
   3. Low level of water in waterpan
   4. Excessively dirty water in waterpan

E. Heavy Foaming of Water in Waterpan
   1. Soapy contaminant in water
   2. High level of water in waterpan
   3. Waterpan not cleaned or dumped after use

F. Musty Odor
   1. Waterpan not cleaned or dumped after use
   2. Separator not cleaned after use
   3. Machine stored on waterpan

G. Machine Running Hot or Burnt Odor
   1. Plugged hose, wand, attachment, or Power Nozzle
   2. Machine not seated on waterpan correctly
   3. Separator not correctly sealed

H. Different Tone, Noise or Vibration
   1. Dirty or clogged separator
   2. Separator not correctly sealed
   3. Water level above center post in waterpan

NOTE: If the above solutions do not prove successful, call your Authorized Rainbow Distributor.
